

All Star COMMITMENT

I promise that my child will be available for All Star practices and games beginning June 15th. The district tournament will begin June 26. If our team wins the District Tournament we will go to the Section 5 Tournament and then to Division 3. For Major, Junior and Senior Divisions, it is possible for teams to advance all the way to the World Series. If our team wins its' tournaments I promise to make my child available for those practices and games as well.

I understand that the emphasis of All Stars is different than the regular season. Practices will be more often and more intense. The manager will be trying to build a winning team which means that different players will have to fulfill different roles. Even though my child was one of the best players on his or her regular season team, he may or may not be a starter on the All Star team. In fact, there is good possibility that he or she will only play the minimum amount during games.

I promise to prepare my child for this possibility and help him or her to understand that being part of a team sometimes means cheering from the bench. Whether starting or sitting, All Stars can and will be a great experience for your child.

The All Star manager, with Board of Directors' approval, may request the removal of any player not fulfilling this commitment.
